Australian Government \$100 billion COVID-19 investment response

Australian Government \$688 million COVID-19 HomeBuilder response

Queensland Government COVID-19 \$51.8 billion infrastructure guarantee and \$500 million investment into a long-term pipeline of work for the construction industry

Queensland Government COVID-19 \$200 million investment in Building Acceleration Fund

A fairer and better construction industry is feasible if we change our thinking

'Eyes up' regulation of the construction industry was important before COVID-19. It is now essential.

New measures to address insolvency in the construction industry are urgently required

QLD commits to trusts for solving SOP issues but no confirmed timeframe

Building Businesses: Private Certification crisis may negatively impact Safer Buildings outcomes

The regulatory regime for the construction of solar farms settled... for the time being

Global Construction giant AIXI posts after tax profit of \$1 trillion for 2038 FY\*

\*Note: In this 'tongue in cheek' article, I decry the failure of the industry to embrace innovation and as a result, an overseas competitor enters the marketplace and in the space of 20 years, totally dominates it.
